WATER POLLUTION CONTROL

INDUSTRIAL/COMMERCIAL PRETREATMENT PROGRAM

P.O. BOX 4169 ♦ 10733 N. RIO VISTA ROAD

POCATELLO, IDAHO 83201

(208) 234-6256 FAX (208) 233-4043

IMPORTANT NOTICE

Pretreatment Considerations Checklist

Business and property owners and contractors, IF YOUR BUILDING WILL BE OR IS CONNECTED TO THE SEWER SYSTEM, A WASTEWATER DISCHARGE PERMIT MUST BE OBTAINED FROM THE WATER POLLUTION CONTROL DEPARTMENT. Permits must be obtained PRIOR to discharging to the sewer system. THIS INCLUDES ANY BUSINESS PLANNING TO OPERATE IN AN EXISTING BUILDING.

In general, any commercial facility or larger residential facility has the potential need for pretreatment, based on the **practices of the businesses, business customer(s), or the products/chemicals used within the facility**. There are no “Grandfather” exceptions for discharging wastewater to the sewer system.

- Pretreatment is the goal of removing an identified pollutant from the waste stream to below established limit(s). The task of removing the pollutant is based on the installation of special plumbing fixtures and/or the application of available technology.
- Pretreatment may be required either inside the building (plumbing system) or outside the building (building sewer system), or be an Administrative control.
- Pretreatment system design also includes the development of both long and short term Maintenance plans and schedules with the owner, or occupant, of the facility. The system may include requirements for reporting, monitoring, and system alarms.

TO OBTAIN A WASTEWATER DISCHARGE PERMIT PLEASE FOLLOW THE STEPS BELOW:

1. Contact Water Pollution Control at (208) 234-6256 ext. 25 or Christi Rowe at (208) 705-6440 to receive a wastewater discharge application.
2. Complete the wastewater discharge application form and return it to Water Pollution Control. (There is no fee to submit the wastewater discharge application)

Issuing a wastewater discharge permit is contingent on all inspections being properly passed. It is imperative that you and your contractors are informed of pretreatment requirements related to your project. Please contact a member of Water Pollution Control’s Pretreatment Program staff for questions regarding permitting and inspection of pretreatment systems, our staff is happy to help you (208) 234-6256.

Building Permit #
Name of Occupant
Address
Date

IMPORTANT NOTE: In addition to your construction permit, Pocatello Fire has established specific Fire and Life Safety system permits. These ARE NOT part of the permit package you obtained through the City of Pocatello Building Department. The issuance of a Fire & Life Safety CERTIFICATE OF OCCUPANCY is contingent on inspections being properly passed. To avoid delays in your project, be informed of proper qualification, certification, and inspection requirements related to your sub-contractors.

Additional fees may be charged for re-inspections, failed, or un-prepared systems.

Contact Pocatello Fire Code Enforcement (208) 234-6203 regarding permitting and inspection.

THE FOLLOWING FIRE AND LIFE SAFETY SYSTEM PERMITS ARE REQUIRED

- Fire Hydrant Line / Sprinkler System Line: Installation OR Modification** – \$100.00
 - Required: (Proof of qualification)
 - Contractor's license.
 - 1 set of drawings showing fire line layouts, size & material types, appurtenances, residual pressures, thrust block details, hydrant details, etc.
- Fire Suppression Systems: Installation OR Modification** – \$100.00
 - Required: (Proof of qualification)
 - Idaho State Sprinkler Contractor's License.
- Standpipe Systems: Installation OR Modification** – \$100.00
 - Required: (Proof of qualification)
 - Idaho State Sprinkler Contractor's License.
- Fire Alarm Systems: Installation OR Modification** – \$100.00
 - Required: (Proof of qualification)
 - National Institute for the Certification in Engineering Technology (NICET II) **OR** Factory certification for equipment/system being installed/modified.
 - Idaho State Electrical/Specialty license (if installing other than low-voltage wiring.)
- Fire Alarm Systems: (Plan Review Fee)** – \$50.00 per 100 devices.
 - Required: (This is **in addition to** the Alarm permit.)
 - Submit 2 sets of architectural plans to scale.
 - Submit 2 sets of battery calculations for devices used.
 - Submit 2 sets of factory "cut sheets" for devices used.
 - One set of PFD stamped and approved plans **must** remain on site.
- Commercial Hood/Suppression Systems** – \$75.00
 - Required: (Proof of qualification)
 - Factory certification for equipment installed.
- Knox Box by Knox Company (secure access to safety systems)** – Pricing varies.
