Subject: workers memorial

Dear Ruth Whitworth,

I was in the office yesterday and dropped off the plans for the new workers memorial we have been trying to organize and erect. we have raised all the money needed to be able to start building this much need monument for community. I know we need to do this exactly right so to be fair to the community and to the city council, The reason for the letter is to hopefully be able to get on the study group so that we can present this to the council and then go from there. I'm just needing information on what you need me to do to be able to accomplish this task. I passed along the blue prints to Konnie yesterday to give to either you or the mayor, since both wanted to see them first. What we are looking for from the council is the piece of property that we can place this, everything else is bought and paid for by the community and will not cost the city a penny.

Thank you for helping us with this project, we hope this is something the community will enjoy and be able to celebrate how and why this city was formed.
