

Proposed Fee Changes

FY2023

Detailed Listing

This report contains details on proposed fee changes for FY2023, including those that are 5% or greater. The proposed increases are necessary to cover increased costs in the various programs or to recover costs through fees instead of taxes. A public hearing is scheduled at 6 p.m. on Thursday, August 4, 2022 in the Council Chambers at City Hall, 911 North 7th Avenue, Pocatello, Idaho.

NOTICE OF ALL FEE CHANGES

The City of Pocatello, Idaho proposes to increase selected annual fee revenue collections beginning October 1, 2022, in the departments listed below by amounts that may exceed one hundred and five percent (105%) of the respective fee revenue collections from the previous year (5% increase). The proposed fee increases are due to additional costs of programs or an attempt by departments to recover costs through fee charges versus tax increases.

About fees: Fee revenue either supplements tax revenues or provides the entire financial support for some services. User fees allow program costs to be recovered by those receiving the service. For example, we all pay taxes to support the Fire department and we all benefit from trained firefighters in case of an emergency. However, if an individual person requests a special service, such as an inspection, then a fee is charged only to that person. This method allows the extra cost of the requested service to be paid by the user.

Fees should be periodically adjusted to keep up with inflation. If fees are not adjusted, more of the burden unfairly falls on the general taxpayer. In the case of utilities (Sanitation, Water & Sewer), these business-type activities are 100% fee supported. No tax dollars are involved. Utility fees are reviewed by an outside consultant and designed to recover costs of providing the service.

This public hearing and Council process is for all fee changes in the City for FY2023.
